What does the ULTRA LIGHT Handyman Range offer you?

GVM range: 490kg to 1.8ton.

This range was developed for the client that needs to move SMALL to BIG, light loads, but not necessarily have a high rated towing vehicle. This range of trailers are our newest addition and was developed for the individual or company who needs a durable trailer to work under general conditions.

This range is equipped with all the necessary accessories needed, but without the nice to haves. For more information on the individual models, please look at the specific model on the website...

If you want an ULTRA LIGHT trailer, this is it.
